

Beta Phi Chapter of Sigma Chi Fraternity

Like all Fraternities, Sigma Chi has a rich songbook with its related history including the famous "[The Sweetheart of Sigma Chi](#)".

The Music of Sigma Chi

The following is a sampling of only a few traditional Sigma Chi songs that have been composed during the last 145 years. The songs are arranged alphabetically into six categories. As you can see, there are several songs focusing on the sweetheart, but there are also marches, banquet songs, and fellowship songs. The chapter and/or college/university designation follows the writers' names when known.

You can also listen to, or download some of the most popular Sigma Chi songs including, [The Sweetheart of Sigma Chi \(Version 1\)](#), [The Sweetheart of Sigma Chi \(Version 2\)](#), [A Sig I Am](#), [I'm a Howling Sigma Chi](#), [My Name is Sigma Chi](#) and several more in MP3 format (see song listings below for complete lists).

The songbook--entitled *Five Score and Five*, edited by Jack E. Pearson and published in 1961 by the Sigma Chi Fraternity--contains many of these songs and a few other specific chapter songs; however, this book is now out of print. There have been several Sigma Chi songbooks, the first being proposed in 1865.

Sweetheart Songs

- ["Dream Girl of Sigma Chi"](#) by Gene Quaw (Arizona '23)
